

PRODUCT RELEASE - C

Issue: 043
Date: 11th of January 2011

Catalogue Section: Indoor Table Bases
Product Manager: Troy Searle

Subject: Lincoln Table Base Series

In our endeavours to improve the quality of our table base range, we are pleased to announce the introduction of the Lincoln table base series.

With the subject raised on our Westbury table base series top frames being inconsistently unlevel, Artia has invested time and money to resolve these concerns and the feedback on the first samples were proven to be positive.

The alterations caused for the name to be changed. The Lincoln table bases now come with the sturdy cast iron top frame as used on our Cast Iron series table bases. The design of the base fins now are tapered into the column and the height is now the customary 720mm that the Hospitality market dictates to avoid any initial confusion as it has a similar look to the Westbury.

All our Lincoln table bases are backed with a 1 year manufacturer's warranty. All meet the standards required by hotels, cafés, restaurants and resorts.

Product Specifications:
