

Knobs and Handles

Introducing Art of Handles, Artia's exciting new collection of knobs and handles for multiple commercial and domestic interior applications.

INNOVATIVE DESIGN

Our range includes:

Bow Handles — beautifully curved handles as shown by Parabola, Adra and Assisi on pages 4 & 5.

Recessed Handles — recessed, flush pulls and rear mounted finger pulls in various designs and configurations.

Flat Handles — a comprehensive selection which is both contemporary and stylish.

Hi-Rise Handles — ergonomically designed to perfectly complement the latest trend towards wide drawers and tall pantries.

All our handles are matched to corresponding knobs.

A CHOICE OF FINISHES

Our handles and knobs are presented in a variety of finishes including Satin Chrome, Mirror Chrome, Brushed Nickel and the new Anodised Brushed Nickel, which is specially manufactured to closely imitate stainless steel and enhance the appearance of kitchen appliances.

SUPERIOR CONSTRUCTION

Aluminium: Although aluminium is sustainable and can be recycled over and over without loss of quality, our handles are made from first-use material only.

Glass and Crystal: Premium quality, attractive and durable with a metal base for ease of installation.

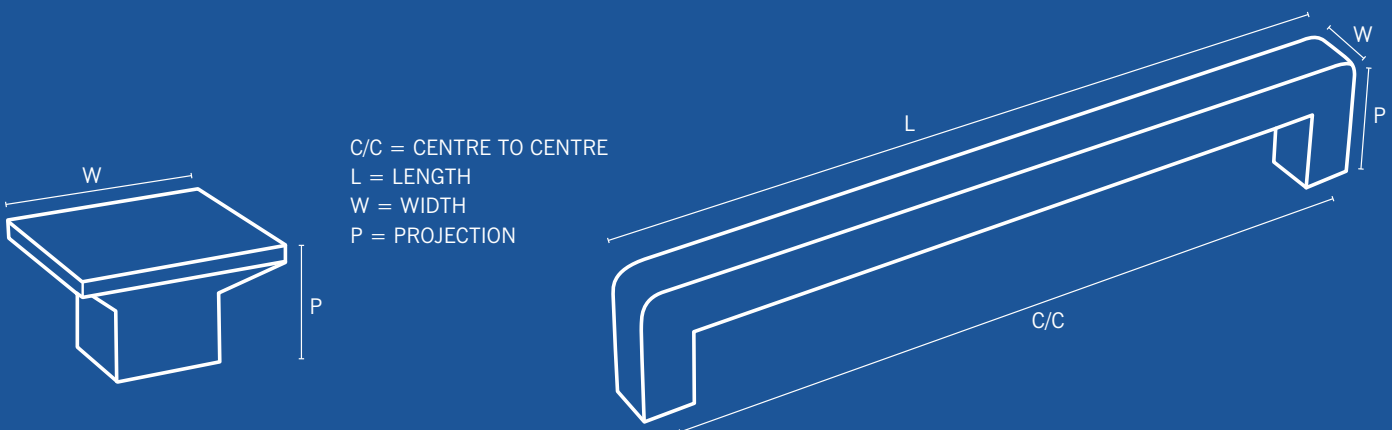

Stainless Steel, 304 Grade: Provides superior rust resistance in damp or humid applications.

Zinc Diecast: Economical and strong with excellent surface finish and dimensional consistency.

CARE AND MAINTENANCE

To avoid scratching and pitting, clean Artia knobs and handles with warm, soapy water and a soft, clean cloth. Avoid household cleansers containing damaging chemicals and never employ abrasive scouring pads.

Please note: Handle screws (from 6mm up to 70mm) are available in store and are sold separately.

In order to constantly maintain, upgrade and improve our range, Artia reserves the right to make alterations in product design, dimensions and/or specifications from time to time. Photographs and line drawings featured in this catalogue are intended to be representational only and, in some cases, actual items may vary slightly from those shown.

All measurements are in mm unless shown.

© Copyright. All rights reserved. Duplication or copying of all or part of this catalogue in any form, electronic or otherwise, is prohibited without our express consent.

While due diligence and care have been exercised to ensure the accuracy of information supplied in this catalogue, Artia cannot be held liable for any misdescriptions or typographical errors contained herein. All products displayed are available at time of publication.

Please note: Due to printing processes colours may vary slightly from those shown.
