Keep It ReAL

Part 2 in our series of handle releases
This release features ALUMINIUM handle ranges

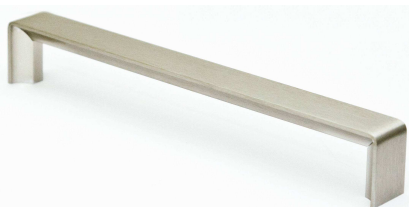

We are pleased to introduce into Artia a new range of architectural handles. Aside from the exciting new designs we are also introducing a brand new finish, Anodised Brushed Nickel (ABN / .420). The ABN finish is lighter than the existing brushed nickel finish and is a closer match to brushed stainless steel found in kitchen appliances. Some of the below handles still have the usual brushed nickel finish.

Adra is a design 24mm wide D shape handle with rounded profile. Available in anodised brushed nickel finish in 160, 224, 352 and 608mm c/c.

Item Number	Fin	C/C	L	W	P	Outer Qty	Inner Qty
